FOREWORD

During the last year Stack's was able to mount a succession of outstanding Public Auction Sales offering the serious collector a wide choice of numismatic material. We are happy to continue in this tradition by opening the 1974 season with a Sale that makes available some particularly attractive coins in the Ancient, Foreign and U. S. series.

The First Session of the present Sale on Thursday evening, January 31, is devoted to Ancient, Oriental and other Foreign gold coins of the highest quality. After opening with a few fine Greek pieces, including the rare gold Dekadrachm of Syracuse, the strength of the Ancient section will be found in Roman Aurei of great rarity, many of which are in a truly breathtaking state of preservation. These are followed by Asian and African coins, and a specialized group of Chinese gold comprising no less than thirty pieces, many of which came from the collection of the Late King Farouk. In the Latin American and South American series there is a broad representation from the Colonial period to modern times. The European gold coins number almost two hundred specimens and include many attractive pieces in exceptionally choice condition.

The Second Session is devoted almost entirely to United States gold coins. While the series is not necessarily complete, the quality is very high and overall it is one of the best we have ever had the pleasure of offering. In the Gold Dollar section there are some magnificent examples. The Quarter Eagles are highlighted by the 1796-with-Stars in gem Uncirculated condition and there are a number of attractive Proofs. In the Three Dollar gold series there are many Proofs and Uncirculated pieces, while among the Half Eagles there is a complete set of the Charlotte and Dahlonega mints. The Eagles begin with a 1795 and include many early issues. There is also a comprehensive selection of Double Eagles, with a number from Carson City.

U. S. silver and copper coins are being offered in the third and final session on Saturday afternoon, February 2. The Half Cent and Large Cent group contain many "Finest Known" and other choice early pieces. But the Half Dimes provide one of the highlights of the Sale. There are Mint State or "Finest Known" examples of the 1795 in two varieties and many others in Uncirculated and Proof. This quality trend is continued in the Dime and Quarter denominations. Among the Half Dollars there are Mint State examples of the 1795, 1801, 1806 and many other dates. The Silver Dollars include three varieties of the 1795, Mint States specimens of the 1796 and 1798 as well as many choice later issues.

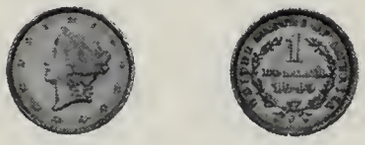
LOTS 448 - 1035

U. S. GOLD DOLLARS

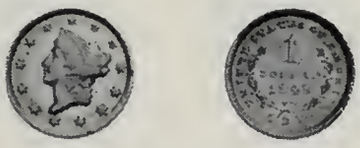
The following collection is a choice offering of this popular series of Gold Coins. Though not complete, the quality level is very high, and it is one of the best collections we've been privileged to offer.

448 1849 Open wreath. Brilliant Uncirculated, well struck. High wire edge on obverse.



Lot No. 449

449 **1849 'C' Closed wreath.** Brilliant Uncirculated. Superb but for scrape before face. Proof-like surfaces. Would compare favorably with the **"finest known"** were it not for the impairment.



Lot No. 450

450 **1849 'D'** Brilliant Uncirculated, full mint bloom. Boldly struck in deep yellow gold. One of the choicest examples we've handled.

451 **1849 'O'** Brilliant Uncirculated, full mint bloom. Sharply struck. Rarely seen in Mint State. Extremely rare this choice!

459 1853 Brilliant Uncirculated. Full mint lustre.

U. S. QUARTER EAGLES ($2.50 GOLD)

It has been close to a decade since we have had the pleasure of offering such a high quality collection of Quarter Eagles at Public Auction. Though the Pierce and Miles Collections were surely more complete, they did not possess the array of high quality lot after lot. Of course the 1796 With Stars is fantastic and is a fitting coin to introduce this series. A glance beyond, however, will further emphasize the extent of quality coins being offered. It may be a decade again before such specimens will be offered, so we urge you to consider carefully what is being sold and bid liberally in order to "capture" some of these great specimens.

EXTREMELY RARE 1796 STARS QUARTER EAGLE

Lot No. 495

495 **1796 With Stars.** Brilliant Uncirculated Gem. Fully proof-like. **A specimen striking,** and unquestionably **the "Finest Known."** This is the second type of Quarter Eagle struck in 1796, and though for many years only 66 were presumed to have been struck, recent research now states 432 were coined. The researchers, however, now doubt if 30 examples are extant. When generally seen, the coin has characteristic weakness at lower curls and correspondingly on reverse. This magnificent coin does not show any weakness, for **it is boldly struck** with full curls and sharp denticles on a mirror-like surface. Hence the conclusion that this was intended for presentation and, therefore, is a **"Specimen Striking"** and possibly the first impression from the die. For accuracy of description it does show the die scratches at TATE on the reverse. All specimens have these adjustments. The coin is the **"prize"** of this sale and would be the prize of any collection it becomes part of. To estimate the value would be difficult for it is virtually priceless!

VERY RARE 1798 QUARTER EAGLE

Lot No. 496

496 **1798** About Uncirculated. Considerable proof-like surface within and about devices. Boldly struck, with sharp denticles almost fully the circumference of coin. One of the best examples of this date we've seen in recent years and surely well within the Condition Census making it **"one of the finst known."**

RARE MINT STATE 1804 QUARTER EAGLE

Lot No. 497

497 **1804** Variety with the 14 Star reverse. **Brilliant Uncirculated gem,** full frosty mint bloom. Perfectly centered. Deep yellow gold, with tinges of light red-orange iridescence. Some proof-like surface. A beautiful specimen, superior to any offered for sale in recent years. Another magnificent specimen in this outstanding offering which fully qualifies as **"one of the finest known."**

RARE 1805 QUARTER EAGLE

Lot No. 498

498 **1805 Brilliant Uncirculated,** full mint lustre. Some faint handling marks. Well struck and fairly well centered. Light adjustment marks hardly worthy of mention. An outstanding example of an early Quarter Eagle.

EXTREMELY RARE 1808 QUARTER EAGLE

Lot No. 499

499 **1808** The only year of this type. **Brilliant About Uncirculated,** with just the faintest evidence of wear. Considerable mint lustre within devices. Nicely struck and well centered. A trifle weak at borders which is common to this date and type. Far superior to any offered by us in the past few years at auction, and should establish a new record for this type.

MINT STATE 1824/1 QUARTER EAGLE

Lot No. 500

500 **1824/1 Brilliant Uncirculated.** Considerable proof-like surface, some lovely orange toning. Fully equal to the Delp specimen sold by us in November 1972 which was described as, **"Unquestionably one of the finest known."** Most of the great sales of the past decade such as Wolfson, Pierce, Miles and DiBello could not boast of a comparable specimen. The coin should establish a new record price.

RARE MINT STATE 1832 QUARTER EAGLE

Lot No. 501

501 **1832 Brilliant Uncirculated,** full mint lustre. Well struck with radial lines apparent within the stars. High rims. A rare and popular "type" coin.

Lot No. 502

502 **1834 Plain 4. No motto.** Brilliant Uncirculated, with considerable proof-like surface. Well struck with deep rims. A choice example of this popular first year of issue "type" coin.

504 **1843 'O' Large date.** Brilliant Uncirculated, attractive satin-like surfaces. Broad borders. One of the choicest we've seen in sometime.

589 **1864** About Uncirculated, fully lustrous. Just the faintest touch of wear on the extreme high points. An under-rated coin, seldom available.

590 **1865** About Uncirculated, with considerable mint lustre about the devices. **Only 1,140 coined for circulation (very few seemed to have survived).** Considering the number of want lists that this coin appears on, it must be one of the "sleeper" dates of the series.

591 **1866** About Uncirculated, almost full mint lustre. Only the faintest touch of wear. A low mintage coin which is always in demand.

592 **1868** Brilliant Uncirculated. Attractive satin-like surfaces with pale golden toning.

593 **1869** About Uncirculated, mint lustre still quite apparent. A pleasing example in spite of some hairline scratches on the reverse.

RARE 1873 THREE DOLLAR GOLD

Lot No. 596

597 **1874** Brilliant Uncirculated, full mint bloom. Lovely satin-like surfaces. A choice coin.

Lot No. 598

598 **1877** Brilliant About Uncirculated, with proof-like surface within the devices. Much rarer than its mint record of 1,488 would indicate.

RARE 1878 PROOF THREE DOLLAR GOLD

600 **1879 Brilliant Uncirculated gem.** Considerable proof-like surface. Partial wire edge. A premium coin which is worth far in excess of catalog valuation.

601 **1880 Brilliant Uncirculated.** Boldly struck with beautiful surfaces. Wire edge. Superior to those offered in recent sales.

RARE 1881 UNCIRCULATED THREE DOLLAR GOLD

Lot No. 602

602 **1881 Brilliant Uncirculated.** A lovely early striking, with proof-like surfaces. High wire edge. **One of the lowest mintages of the entire series** as only 500 were struck. A few lint marks away from the absolute "gem" category.

605 **1884 Brilliant Uncirculated. "First Strike" with proof-like surface.** Some light handling marks in field. Of the 1,000 struck for general circulation, few are extant in any grade and the coin is very rare in this state of preservation.
